ABOUT

Brandon is a multimedia professional based in Harare, Zimbabwe, working across writing, photography, videography and graphic design.

He holds a BA Honours in Journalism and Media Studies (Public Relations major) from the University of Zimbabwe. He currently serves as Sales and Business Development Officer at Sakiso Digital, a digital agency offering AI training workshops, workflow automation and custom software development — where his design work supports campaign flyers, client collateral and the agency's social media presence.

Alongside design, Brandon works as a writer and journalist, and is a trombonist, bringing a multi-hyphenate, storytelling sensibility to visual work — whether it's a school-facing campaign, a client's product launch, or a community event poster.

Based in **Harare, Zimbabwe** — currently at **Sakiso Digital**

AI TRAINING FOR TEACHERS

CAMPAIGN FLYER — SAKISO DIGITAL

A recruitment flyer for Sakiso Digital's school-based AI training programme, designed to put the offer in front of school leadership at a glance: tailored curriculum, on-site delivery across Zimbabwe, and certification on completion. Clear iconography and a confident type hierarchy carry the message without relying on the supporting image alone.

STAY CONNECTED, ANYWHERE

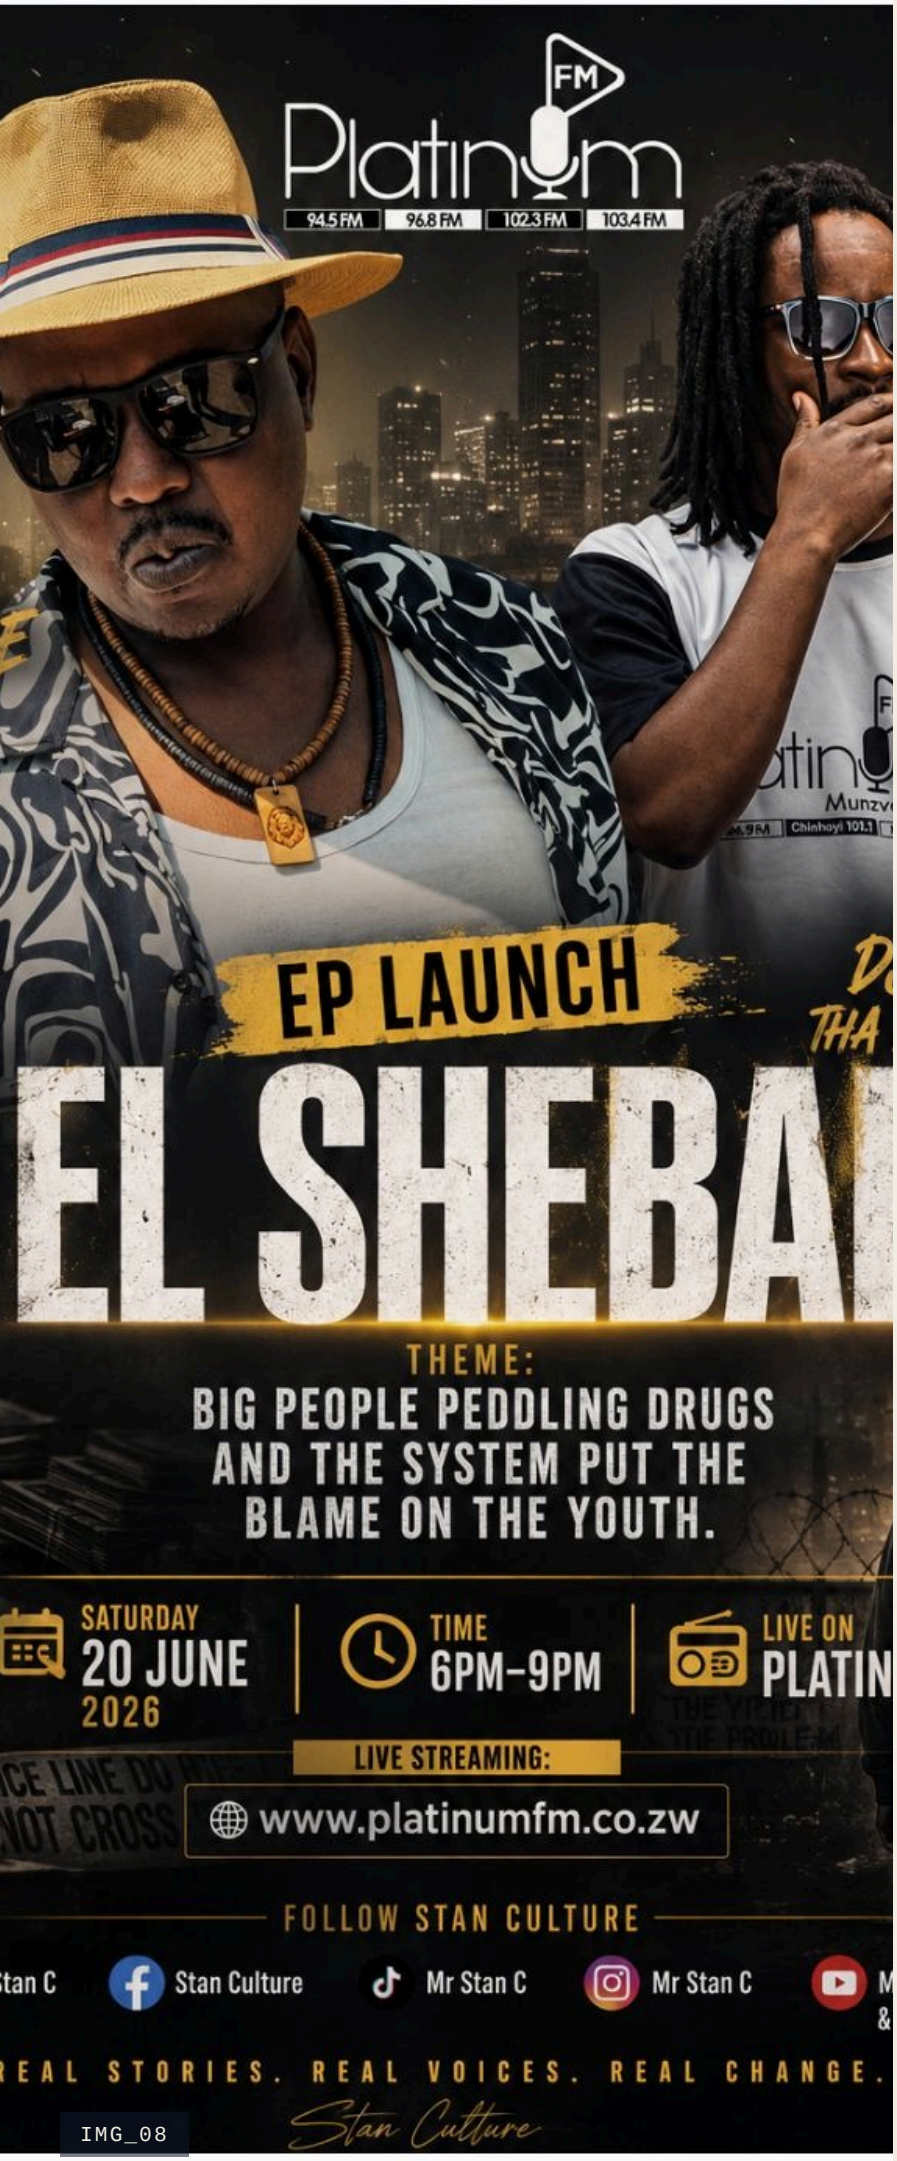

PRODUCT FLYER — SAKISO DIGITAL × STARLINK

A pricing and package flyer for Starlink connectivity kits sold and installed through Sakiso Digital. Product photography is paired with a clean breakdown of the Standard and Mini kits, consultancy pricing and on-site setup fees — giving a technical, high-ticket product a simple, scannable structure.

EL SHEBAB EP LAUNCH

EVENT POSTER — PLATINUM FM

Poster for Stan Culture's "El Shebab" EP launch, broadcast live on Platinum FM. The design leans into a darker, editorial photo treatment and heavy display type to match the release's social theme, while keeping the practical details — date, time and streaming link — clearly legible.
